

## The Żywiec' brand Warka becomes the new sponsor of the national football team

Warka has become a new sponsor of the Polish national football team. Warka, which is part of the Żywiec Group, has signed a four-year contract. Warka will sponsor the team through the UEFA EURO 2012 campaign and the 2014 FIFA World Cup qualifiers to be held in Brazil. Speaking at the Legion Stadium in Warsaw, PZPN president Grzegorz Lato said, „I am glad that another well-known brand has decided to cooperate with the Polish Football Association. Thanks to this financial stability it will be much easier for us to make changes, which we all expect us to do.” Xavier Belison, who is the president of Żywiec Group, said, „The face of Polish football is changing for the better. Just look at the new stadiums in Warsaw and Poznań, and those that are arising in many other Polish cities. Together with our brand Warka we want to be a part of that.” The Warka logo will soon be seen on the turf during

matches and training sessions of the team. Warka is also allowed to use the team emblem as part of its marketing initiatives.

## Van Ameyde Group Assists in Flood Claims

The floods that hit Poland in the past few months are the worst since 1997. Thousands were forced from their homes after rivers burst their banks as a result of storms and torrential rains. The heavy downpours have caused significant damage as well as loss of lives.

One of Poland's major insurers has called in Van Ameyde to deal with thousands of flood-related property claims. „The claims adjusters of Van Ameyde are used to dealing with claims of this nature and will do anything in their power to set the minds of the flood victims at rest,” said Krzysztof Jablonski of Van Ameyde. He added, „It is our mission to handle these insurance claims as efficiently as possible, so that the victims can try and put this tragedy behind them.”

Other Polish insurers have also shown an interest in Van Ameyde's claims management services in the areas of property, motor, bodily injury and liability insurance.

## Grontmij to supervise the construction of a breakwater in Poland

The Maritime Office in Szczecin has asked Grontmij for its support in realising a breakwater construction in Świnoujście, Poland. Grontmij will carry out the project with engineers from Grontmij Poland, the Netherlands, and Denmark. The total fee involved for Grontmij amounts to EUR 2.5 – 3 million over a three year period.

Grontmij will render its services for the so-called 'Świnoujście sheathing breakwater construction' whereby a new three km long sheathing breakwater has to be built 1000 meters sea inwards and away from the existing breakwater, which is under renovation. Moreover, the project also includes the construction of a 255 meters long wing dam to be built on the existing breakwater, which will create the entrance to the new external seaport of Świnoujście for Liquefied Natural Gas (LNG) tankers.

Maciej Chrzanowski, President of the Board, Grontmij Poland: „This latest appointment again shows that Grontmij is valued for its ability to work cross border in international teams delivering innovative approaches and solutions for complex problems and challenging situations.”

## ARCADIS LANDS TWO NEW ROAD CONTRACTS IN POLAND

ARCADIS has won contracts for project management and construction supervision of two expressway sections in Poland. The client for both projects is the General Directorate for National Roads and Motorways of Poland (GDDKiA). The combined value of the contracts totals € 8 million of which € 6 million is for ARCADIS. Both projects are co-financed by the European Union in the framework of the Infrastructure and Environment Operational Program. ARCADIS will supervise a total of more than 60 km of road construction – approximately 20 km of the S2 expressway from the junction "Konotopa" to the junction "Airport", as well as 43 km of the S3 expressway between Gorzów Wielkopolski and Nowa Sól along Poland's western border. The section of the S2 expressway, which constitutes a portion of Warsaw's southern bypass, will be supervised in cooperation with Egis as part of a consortium led by ARCADIS.

## Fortak & Karasiński Legal Advisers awarded

Fortak & Karasiński Legal Advisers LLP won an honourable mention in the prestigious contest „Most innovative law firm 2010” organised by the National Council of Legal Advisers, and Forbes magazine. The competition was attended by many law firms from all across Poland. The jury awarded the Firm Fortak & Karasiński for their solutions in the field of human resource management. The law firm developed a system through which it is easier to collaborate with interns and trainees. Fortak & Karasiński Legal Advisers LLP is located in Łódź and was established in 2003.
